

TWO FIRMS SUSPEND

SEQUEL TO A PERIOD OF EXCITED
SELLING OF STOCKS AND WIDE
CUT IN PRICES.

JAMES R. KEENE INVOLVED

EFFECT OF TAYLOR FAILURE ON
HIS PERSONAL FORTUNE IS
NOT KNOWN.

New York, July 25.—The announcement on the Stock Exchange late Friday of the suspension of the firms of Talbot J. Taylor & Co., and of W. L. Stow & Co., was the sequel to a period of excited selling of stocks and wide cuts in prices which has not been equalled before since the present movement to liquidate net in. There is nothing in either failure that can be traced to business or industrial conditions outside the exchange, the cause lying close to a diagnosis of speculative collapse. Both firms have been largely concerned in speculative stock market pools, formed for the purpose of taking on a line of stocks, sustaining their price by supporting orders real or manipulative and seeking to realize profits by selling out to outsiders at the high prices. Such operations have suffered from increasing difficulties with the growth in the stringency of money, the solicitude of bankers over loans employed in such projects and the faded appetite of the public for securities.

The operations of the firm of W. L. Stow & Co. were on a large scale in Mexican Central, and the difficulties which have accumulated upon them are understood by the price of 11 touched by Mexican Central under the forced selling Friday, and the high level at 21 1/4 last year.

Connected With Keene's Operations.

The failure of Talbot J. Taylor & Co. will inevitably be connected with the great market operations of James R. Keene by reason of his family connection with and frequent employment of the firm. Mr. Keene's operations in stocks are too numerous to detail and much mystery usually attaches to them necessarily from their nature. But the market management of the United States Steel stocks on behalf of the syndicate and the conduct of a Southern Pacific pool are the operations with which his name is most notably connected.

The accumulation, according to common belief, of 300,000 shares of Southern Pacific and the lifting of its price above 80, were based upon the assumption that Southern Pacific bonds were to be issued for that road's work of improvement and the net earnings applied to dividends. Talbot J. Taylor & Co., as representatives of the pool, felt themselves powerful enough to challenge the Union Pacific party's refusal to adopt this policy and to carry the quarrel to the courts. The animosities and resentments engendered by that quarrel are supposed to have added to the weight of the firm's difficulties and to have aided in bringing it down.

Veritable "Black Friday."

It was a veritable "Black Friday" and although the market rallied very decidedly at the close and the general situation in the minds of some was much improved, a great many persons having interests in the "street" went home in anything but a cheerful frame of mind.

It was freely predicted that trouble even more serious was impending. From trustworthy sources it was learned that three or more commission houses had been "squeezed" almost to the bursting point.

Contracts made Friday hold out until Monday, which may enable embarrassed individuals to get their "second wind."

The best information is that the insolvent firms had comparatively few outstanding commitments and these, it is believed, were settled privately on the floor.

It is said that a prominent international banking house with important railroad interests in Mexico bought liberally Friday of Mexican Central.

Report says that Taylor & Co. sold privately to a large banking interest, which it some time ago antagonized, 40,000 shares of Southern Pacific. The Stow failure was announced shortly before 2 p. m. and that of Taylor & Co. followed within less than ten minutes. The stock exchange was crowded as it had been all day, with brokers, many of whom in recent months had been more conspicuous by their absence from the board, but who were regular in their attendance this week because of the

Gathering Financial Storm.

The visitors' gallery of the Stock Exchange held an excited throng of strangers.

The board room was the scene of wild excitement all day. A "tip" that something would "drop" before the close of the market had gone all around. The hush that fell as the official announcements were made was broken only by the ill suppressed buzz of brokers who gathered in groups and listened intently to the words of the chairman, perched in his little white marble balcony.

Then followed another wild scramble all over the room. A thousand telephone bells rang and almost as many uniformed messenger boys seemed to leap out of the floor and scurry in all directions. The excitement subsided

with the clang of the huge gong which marked the closing of the market. While many a sigh of relief went up there was also dread of the morrow.

To those who were in the "know" the Stow failure caused little surprise, but the Taylor embarrassment was really unexpected. Taylor & Co. have been the principal "Keene" brokers for the past three years, that famous operator making the Taylor office his headquarters.

The effect of the Taylor failure upon James R. Keene's personal fortune is largely a matter of conjecture. According to some reports the veteran operator is heavily involved, and according to others scarcely at all.

AFFECTS SENTIMENT.

But Stock Market Liquidation Cannot Conceal Trade Improvement.

New York, July 25.—Bradstreet's review of trade says stock market liquidation at the expense of industrial affects sentiment and ignores, but does not conceal, improvement in the corn and cotton crops, a change for the better in industrial conditions at New York and other disturbed centers, and a continued cheerful feeling in Western and Southwestern trade circles. The markets for the cereals also reflect selling, but here the moving feature is the good crop advices at home and abroad and the pressure of the excellent quality of the new wheat arrivals. The iron and steel markets and those for other metals feel the reflex action of depression in securities and buying is closely restricted.

MUST RESTORE ITS STATION.

Minnesota Supreme Court Decides Against Railroad Company.

St. Paul, July 25.—Although the town of Bluffton has declined in population until it now comprises within its corporate limits but seventeen families of about 100, the Northern Pacific Railroad company must restore the railroad station which it removed from there to a point about three miles distant more than two years ago.

So says the supreme court in a decision filed yesterday, in which the mandate of the state railroad and warehouse commission is affirmed.

This case has attracted general interest and has been vigorously fought on both sides, not alone for the sake of the questions immediately involved, but because of their bearing upon numerous other situations in which the same conditions exist.

It was shown in the course of the hearing that at the same time the station was removed there were at Bluffton a creamery, general store and several other industries, and that a number of farmers of that vicinity depended upon the Bluffton station for railroad facilities and could not conveniently use the new station. It was shown that the lumber operators at Bluffton had fallen off, but on the other hand, that other industries had been established there and in the vicinity, and that the railroad company had taken no particular steps to make the new station of service to the people of that district.

The railroad company argued that Bluffton was located on a grade, which made it costly and inconvenient to stop trains there, but this the court refused to consider, since the grade had not appeared to interfere in the course of the years when the company maintained the station at Bluffton.

OFFICIAL BUSINESS OVER.

Diary and Food Men Elect Their Officers.

St. Paul, July 25.—Friday saw the official close of the dairy and food convention, so far as business is concerned. The final work of the convention was the election of officers for the ensuing year and the adoption of some important resolutions.

The delegates visited places of interest about the city in chartered cars during the afternoon, and in the evening were entertained at the Commercial club in a roof garden party and lunch.

The secretary of the association, R. M. Allen, says there is very little doubt that the next meeting at St. Louis will be an international affair.

The following officers were elected: President, J. W. Bailey, Oregon; first vice president, W. P. McConnell, Minnesota; second vice president, Marconi Helmer, Utah; third vice president, Horace Ankeny, Ohio; secretary and treasurer, R. M. Allen, Kentucky; executive committee, J. W. Bailey, Oregon; R. M. Allen, Kentucky; A. H. Jones, Illinois; N. R. Critchfield, Pennsylvania; J. B. Noble, Connecticut.

The resolutions favor laws making for the greater purity of whisky, and national pure food laws.

CARS IN COLLISION.

Thirty-eight Persons Injured Near Northboro, Mass.

Worcester, Mass., July 25.—Seventy-eight passengers were in a rear end collision of the Worcester Consolidated Street railway a mile west of Northboro Friday afternoon. Thirty-eight of them were injured, but only four of these received serious injuries.

The accident was the result of a special car filled with members of Emmet Guards returning to Worcester from the state camp grounds at South Framingham running into the regular car, which had stopped to take on a passenger. The collision was due to running the special too near the regular car.

Fitzsimmons to Be Married.

San Francisco, July 25.—Robert Fitzsimmons, actor and pugilist, was Friday granted a license to marry Julia May Gifford, the actress. The ceremony will take place today. Fitz gave his age at forty-one, and that of the prospective bride as twenty-three.

PREVENTED BY RUSSIA

CHINA MAY NOT ENTER INTO
ENGAGEMENTS REGARDING
MANCHURIA.

GETTING READY FOR WAR

TROOPS OF THE CZAR MARCHING
IN A STEADY STREAM TO
THE SOUTH.

London, July 25.—The Times this morning prints a long Peking dispatch, commenting on the Manchurian situation, which says that Russia's declaration to the powers on the subject of opening Manchurian ports, which Prince Ching asserts was not communicated to China, is interpreted in Peking to mean that Russia will not permit China to enter into any engagements with other powers regarding Manchuria which may embarrass Russia in the future when the territory finally becomes a Russian province.

Hence, the Times correspondent says, Russia's refusal to permit in Manchuria foreign settlement similar to those in Chinese treaty ports. It is openly contended by the Russians that Harbin is purely a Russian city, to which a foreign consul could not be appointed without Russian consent. If the United States, continues the correspondent, considers the declaration satisfactory and believes Russia will assist in the development of foreign trade in Manchuria, it must be kept in surprising ignorance of the unhappy experience of an American trading company both at Vladivostok and Port Arthur.

Air Is Full of Rumors

and the situation seems to be pregnant with possibilities. There is no pretense of evacuating Manchuria. On the contrary, reinforcements are constantly arriving, there is a continuous southward movement of troops and guns, whilst as a result of General Kuropatkin's visit, Dalny, hitherto free from military protection, is to have two powerful forts and a garrison of 15,000.

The coast and the railway from Port Arthur to a point two stations above Dalny, is to be strongly fortified. There are incessant shipments of coal and foodstuffs to Port Arthur and feverish drilling and gun practice on the Russian fleet, all of which may not forebode war, but which accounts for the fear common in North China that war is possible.

After describing the movement of Russian troops to other points, the dispatch concludes by saying that the stories of British-Japanese joint notes to Russia published in various papers, are fictitious, so far as can be ascertained at Peking. Up to the present time, says the dispatch, no policy could be more reasonable or more self-restrained than Japan's, but that it is impossible to conceal the fact that the uncertainty of the future causes hesitancy.

The Standard prints a Tien Tsin dispatch which says that the New Chwang trains are crowded with Russian troops going in the direction of Port Arthur; that these trains are taking precedence over normal traffic and that heavy guns and other artillery are also being sent.

PHYSICIAN CREATES LIFE.

Indiana Doctor Makes Successful Experiments.

Anderson, Ind., July 25.—With one ounce of common salt, six ounces of pure water, six ounces of 90 per cent alcohol, all mixed in an ordinary glass dish, and two ounces of aqua ammonia distributed in five small plates and all covered by an air-tight glass tube, Dr. Charles W. Littlefield of Alexandria, Ind., Friday afternoon declared that he had created life in the form of thousands of atoms of animated substances similar to well developed germs of life and trilobites. According to Dr. Littlefield, only 90 minutes were consumed while salt crystals were impregnated with the hydrogen and volatile magnetism of the chemical solution and transformed into living forces that immediately sought nourishment through mediums that Dr. Littlefield termed feeders, lacking any technical name. Microscopic examination showed that crystals not affected by the chemical mixture retain their original cubic or square form, while the magnetized crystals were of hexagonal shape, with life first appearing in the center and spreading until the crystal was round and finally of globular shape. A mass of the life substances possessed magnetism of pronounced degree, radiating a power that would separate the crystals and then draw them together again.

It has not been determined what the germs or atoms would propagate. Dr. Littlefield says he repeated his experiments several times, and with practically the same successful results.

Novel Foot Wear.

Miss May Van Alen brought from England something decidedly original in footwear, appearing at the Casino in Newport the other morning for the first time with morning slippers made of rattlesnake leather, with the heels of French style, in red, says the New York American. The front of the slipper is set off with a dark silver buckle and adds to the design.

TWO DEAD AND ONE DYING

Misunderstanding Results in Deadly Fight in Tennessee.

Knoxville, Tenn., July 25.—Jerry Jarnagin, a collector for the East Tennessee brewery of this city, was shot and instantly killed at Lafolette, Tenn., Friday afternoon by J. L. Smith, who was shot by Jarnagin and is now dying. Taylor Smith, a son of J. L. Smith, was shot and killed by Deputy Sheriff Paterson, who was trying to arrest him.

The trouble was caused by a misunderstanding in regard to a settlement between the East Tennessee Brewing company and Smith, who was the agent of the company at Lafolette. Jarnagin was sent out to effect a settlement. In a row which followed, Smith struck Jarnagin and Jarnagin in turn fired, striking Smith under the left arm. Smith ran to his saloon and he and his son started on a hunt for Jarnagin, who had gone to a hotel and hidden behind the clerk's desk. When the Smiths rushed into the hotel, the elder one was shot in six places. Jarnagin was shot in the stomach and died instantly. In attempting to arrest Taylor Smith, Deputy Sheriff Paterson shot and instantly killed him although it is said the young man had both hands up when fired on.

ORGANIZATION OF THE HOUSE

Congressman Cannon Will Discuss It With Other Solons.

Plattsburg, N. Y., July 25.—Congressman Joseph G. Cannon of Illinois and James A. Hemenway of Indiana and former Congressman Lewis W. Emerson of Warrensburg, N. Y., are the guests of Congressman Joseph C. Sibley of Franklin, Pa., at his summer residence at Valcour on Lake Champlain. The party will be joined today by Congressman Edward B. Vreeland of Salamanca, James S. Sherman of Utica and George L. Southwick of Albany, Congressman-elect William H. Lack of Malone, N. Y., and Collector of Customs Walter C. Witherbee of Port Henry, N. Y.

The party will be the guests of Congressman Sibley on a trip to Quebec aboard his steam yacht Valcour. While the visit is of a social nature, it is understood that plans will be laid regard the organization of the next house of representatives and prospective important legislation.

SHOT FROM AMBUSH.

Two Colorado Women Seriously Wounded by Buckshot.

Lake City, Colo., July 25.—Mrs. Anna Bailey and Mrs. Mary Woods were shot from ambush Thursday night about a mile from town when returning from Lake Shore. Mrs. Bailey is mortally wounded and Mrs. Woods is in a serious condition. The assassin, who was concealed among rocks on the mountain side, fired a charge of buckshot at the women as they drove past. The charge struck Mrs. Bailey on the side of the face, neck and shoulder, cutting her wind pipe, tearing away part of her nose and destroying one eye. Many of the pellets penetrated Mrs. Woods' body. The shooting caused the horse to run away, and both women were thrown out of the buggy, receiving further injuries. Mrs. Woods' husband, who had quarreled with her, has been arrested.

THE MINNIE HEALY CASE.

Montana Supreme Court Reverses Justice Harney's Decision.

Helena, Mont., July 25.—The decision of Justice Harney of Butte, refusing a new trial in the Minnie Healy case, was reversed by the Montana supreme court Friday and the case remanded. The litigation involves mining property worth \$10,000,000 or more. The reversal was based upon charges of misconduct made against Judge Harney and upon the merits of the case.

The supreme court also modifies the order of survey granted to Heinze in the Nipper case and denied a motion filed by Heinze and attorneys to draw the certified check for \$125,000 filed as a bond in the Minnie Healy case from the Daly Bank and Trust company.

GEORGIA CONVICTS IN REVOLT.

Guards Wound Two Negroes in Trying to Restore Order.

Chattanooga, Tenn., July 25.—The convicts leased by the state of Georgia to the Georgia Iron and Coal company at Cole City, Ga., revolted Friday afternoon over the punishment of one of their number. The guards, in attempting to restore order, shot and fatally wounded two of the negroes, but the remainder of the colony, about 125 in number, have barricaded themselves and are defying the guards. It is said there is no way for them to escape from the mine and that to subdue them the guards will have to starve them out.

State Warden Moore of Georgia was informed by telegraph of the trouble and passed through here en route to Cole City.

Victory for the Kanawha.

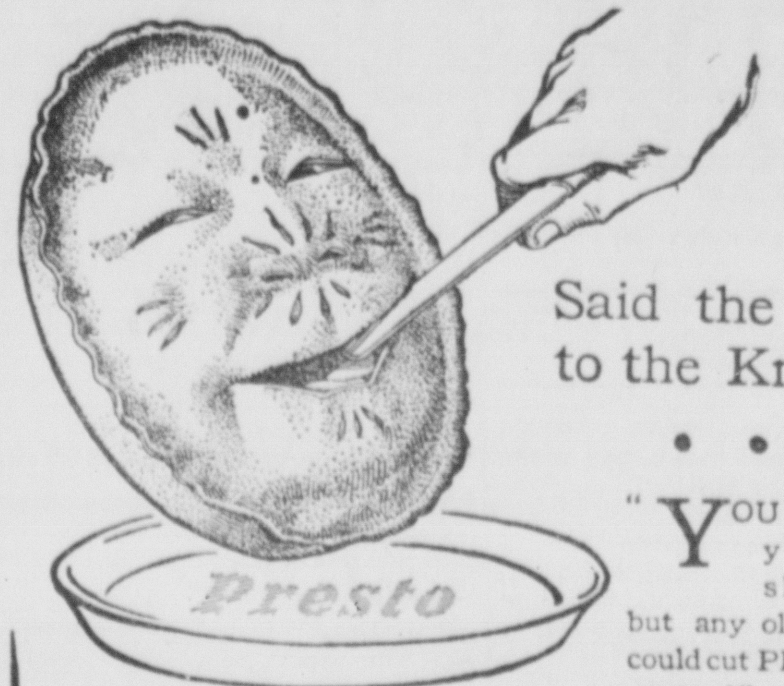

Newport, R. I., July 25.—Henry H. Rogers' fast steam yacht Kanawha defeated the Noma, owned by William B. Leeds, by 4 minutes, 56 seconds, in a sixty-mile race for the Lysistrata cup off here Friday afternoon.

Incorporated With Large Capital.

Salt Lake City, Utah, July 25.—Articles of incorporation of the Western Pacific Railway company with a capitalization of \$50,000,000 have been filed with the secretary of state.

Charged With Murder.

Janeville, Wis., July 25.—Thomas Joyce was arrested Friday charged with killing Herman Zimmerman in City Park six weeks ago.

Mrs. Barrington Granted a Divorce.

Kansas City, July 25.—Mrs. Wilhelmina Grace Barrington was Thursday granted a divorce from "Lord" Frederick Seymour Barrington, who is now under indictment at St. Louis, charged with murder. She married Barrington in St. Louis, believing that he was an English lord.

Mortar Blown to Pieces.

Sandy Hook, N. J., July 25.—A twelve-inch mortar was blown to pieces at the Sandy Hook proving grounds Thursday. The men who were about to fire the mortar were all behind bombproofs and no one was injured by the widely scattered pieces of steel.

OUTDONE BY KANSAS GIRLS.

Student Farm Hands No Match For Them at Shocking Wheat.

Students and others from the eastern cities who went to Kansas to work in the harvest fields are not able in many instances to keep up with the farmers' daughters who help out in the present rush, says a Topeka dispatch to the New York Times.

In Pawnee county the other day six young fellows were laid out by the heat, while four maidens, performing the same service, sang merrily from morning to night. Similar stories came from the other counties. The easterners appear to be rugged and strong, but the change of water and altitude, with the intense heat and burned atmosphere, put them out in short order, while the girls who are acclimated are not disturbed.

Tree Planting on Pike's Peak.

A very interesting experiment and one of great importance to the people of the west will be conducted this summer on Pike's peak, says the Pueblo Chieftain. A party from the United States forestry bureau under charge of one of the government experts will plant a large number of trees on the slopes of Pike's peak and the neighboring mountains. The trees thus planted will not only be of great benefit to the Pike's peak region, but the experiments will be most valuable in solving general problems relating to forestry in the west.

Air is Full of Rumors

and the situation seems to be pregnant with possibilities. There is no pretense of evacuating Manchuria. On the contrary, reinforcements are constantly arriving, there is a continuous southward movement of troops and guns, whilst as a result of General Kuropatkin's visit, Dalny, hitherto free from military protection, is to have two powerful forts and a garrison of 15,000.

The coast and the railway from Port Arthur to a point two stations above Dalny, is to be strongly fortified. There are incessant shipments of coal and foodstuffs to Port Arthur and feverish drilling and gun practice on the Russian fleet, all of which may not forebode war, but which accounts for the fear common in North China that war is possible.

After describing the movement of Russian troops to other points, the dispatch concludes by saying that the stories of British-Japanese joint notes to Russia published in various papers, are fictitious, so far as can be ascertained at Peking. Up to the present time, says the dispatch, no policy could be more reasonable or more self-restrained than Japan's, but that it is impossible to conceal the fact that the uncertainty of the future causes nervousness.

The Standard prints a Tien Tsin dispatch which says that the New Chwang trains are crowded with Russian troops going in the direction of Port Arthur; that these trains are taking precedence over normal traffic and that heavy guns and other artillery are also being sent.

PHYSICIAN CREATES LIFE.

Indiana Doctor Makes Successful Experiments.

Anderson, Ind., July 25.—With one ounce of common salt, six ounces of pure water, six ounces of 90 per cent alcohol, all mixed in an ordinary glass dish, and two ounces of aqua ammonia distributed in five small plates and all covered by an airtight glass tube, Dr. Charles W. Littlefield of Alexandria, Ind., Friday afternoon declared that had created life in the form of thousands of atoms of animated substances similar to well developed germs of life and trilobites. According to Dr. Littlefield, only 90 minutes were consumed while salt crystals were impregnated with the hydrogen and volatile magnetism of the chemical solution and transformed into living forces that immediately sought nourishment through mediums that Dr. Littlefield termed feeders, lacking any technical name. Microscopic examination showed that crystals not affected by the chemical mixture retain their original cubic or square form, while the magnetized crystals were of hexagonal shape, with life first appearing in the center and spreading until the crystal was round and finally of globular shape. A mass of the life substances possessed magnetism of pronounced degree, radiating a power that would separate the crystals and then draw them together again.

It has not been determined what the germs or atoms would propagate. Dr. Littlefield says he repeated his experiments several times, and with practically the same successful results.

Novel Foot Wear.

Miss May Van Alen brought from England something decidedly original in footwear, appearing at the Casino in Newport the other morning for the first time with morning slippers made of rattlesnake leather, with the heels, of French style, in red, says the New York American. The front of the slipper is set off with a dark silver buckle and adds to the design.

TWO DEAD AND ONE DYING

Misunderstanding Results in Deadly
Fight in Tennessee.

Knoxville, Tenn., July 25.—Jerry Jarnagin, a collector for the East Tennessee brewery of this city, was shot and instantly killed at Lenoir, Tenn., Friday afternoon by J. L. Smith, who was shot by Jarnagin and is now dying. Taylor Smith, a son of J. L. Smith, was shot and killed by Deputy Sheriff Paterson, who was trying to arrest him.

The trouble was caused by a misunderstanding in regard to a settlement between the East Tennessee Brewing company and Smith, who was the agent of the company at Lenoir. Jarnagin was sent out to effect a settlement. In a row which followed Smith struck Jarnagin and Jarnagin in turn fired, striking Smith under the left arm. Smith ran to his saloon and he and his son started on a hunt for Jarnagin, who had gone to a hotel and hidden behind the clerk's desk. When the Smiths rushed into the hotel, the elder one was shot in six places. Jarnagin was shot in the stomach and died instantly. In attempting to arrest Taylor Smith, Deputy Sheriff Paterson shot and instantly killed him, although it is said the young man had both hands up when fired on.

ORGANIZATION OF THE HOUSE

Congressman Cannon Will Discuss It
With Other Solons.

Plattsburg, N. Y., July 25.—Congressman Joseph G. Cannon of Illinois and James A. Hemenway of Indiana and Former Congressman Lewis W. Emerson of Warrensburg, N. Y., are the guests of Congressman Joseph C. Sibley of Franklin, Pa., at his summer residence at Valcour on Lake Champlain. The party will be joined today by Congressman Edward B. Vreeland of Salamanca, James S. Sherman of Utica and George L. Southwick of Albany, Congressman-elect William H. Lack of Malone, N. Y., and Collector of Customs Walter C. Witherbee of Port Henry, N. Y.

The party will be the guests of Congressman Sibley on a trip to Quebec aboard his steam yacht Valcour. While the visit is of a social nature, it is understood that plans will be laid regard the organization of the next house of representatives and prospective important legislation.

SHOT FROM AMBUSH.

Two Colorado Women Seriously
Wounded by Buckshot.

Lake City, Colo., July 25.—Mrs. Anna Bailey and Mrs. Mary Woods were shot from ambush Thursday night about a mile from town when returning from Lake Shore. Mrs. Bailey is mortally wounded and Mrs. Woods is in a serious condition. The assassin, who was concealed among rocks on the mountain side, fired a charge of buckshot at the women as they drove past. The charge struck Mrs. Bailey on the side of the face, neck and shoulder, cutting her wind pipe, tearing away part of her nose and destroying one eye. Many of the pellets penetrated Mrs. Woods' body. The shooting caused the horse to run away, and both women were thrown out of the buggy, receiving further injuries. Mrs. Woods' husband, who had quarreled with her, has been arrested.

THE MINNIE HEALY CASE.

Montana Supreme Court Reverses Justice Harney's Decision.

Helena, Mont., July 25.—The decision of Justice Harney of Butte, refusing a new trial in the Minnie Healy case, was reversed by the Montana supreme court Friday and the case remanded. The litigation involves mining property worth \$10,000,000 or more. The reversal was based upon charges of misconduct made against Judge Harney and upon the merits of the case.

The supreme court also modifies the order of survey granted to Heinze in the Nipper case and denied a motion filed by Heinze and attorneys to draw the certified check for \$125,000 filed as a bond in the Minnie Healy case from the Daly Bank and Trust company.

GEORGIA CONVICTS IN REVOLT.

Guards Wound Two Negroes in Trying
to Restore Order.

Chattanooga, Tenn., July 25.—The convicts leased by the state of Georgia to the Georgia Iron and Coal company at Cole City, Ga., revolted Friday afternoon over the punishment of one of their number. The guards, in attempting to restore order, shot and fatally wounded two of the negroes, but the remainder of the colony, about 125 in number, have barricaded themselves and are defying the guards. It is said there is no way for them to escape from the mine and that to subdue them the guards will have to starve them out.

State Warden Moore of Georgia was informed by telegraph of the trouble and passed through here en route to Cole City.

Victory for the Kanawha.

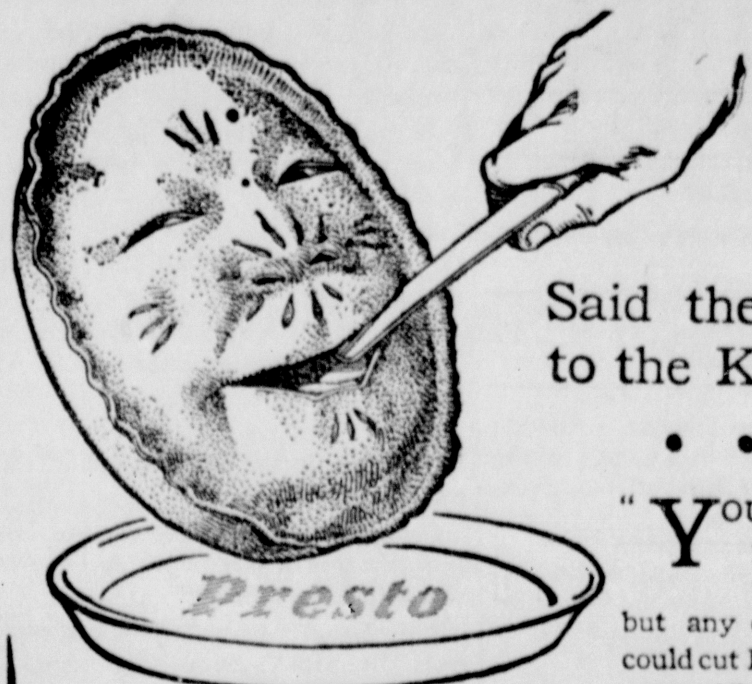

Newport, R. I., July 25.—Henry H. Rogers' fast steam yacht Kanawha defeated the Norma, owned by William B. Leeds, by 4 minutes, 55 seconds, in a sixty-mile race for the Lysistrata cup off here Friday afternoon.

Incorporated With Large Capital.

Salt Lake City, Utah, July 25.—Articles of incorporation of the Western Pacific Railway company with a capitalization of \$50,000,000 have been filed with the secretary of state.

Charged With Murder.

Janesville, Wis., July 25.—Thomas Joyce was arrested Friday charged with killing Herman Zimmerman in City Park six weeks ago.

Tacoma, Wash., July 25.—Mail advices from Manila state that a firm in Shanghai has been awarded the contract for furnishing 10,000 water buffalo to the insular government of the Philippines. All the animals will be immunized against rinderpest before being shipped from China. The whole number will be divided into lots of 500 each and the shipments will be made each month.

Hill Must Hang.

Washington, July 2.—The president has denied the application for commutation of death sentence passed on Benjamin G. Hill, a white man, sixty-five years old who killed his wife, some months ago. Hill will be hanged today at the district jail.

Mrs. Barrington Granted a Divorce.

Kansas City, July 2.—Mrs. Wilhelmina Grace Barrington was Thursday granted a divorce from "Lord" Frederick Seymour Barrington, who is now under indictment at St. Louis, charged with murder. She married Barrington in St. Louis, believing that he was an English lord.

Mortar Blown to Pieces.

Sandy Hook, N. J., July 2.—A twelve-inch mortar was blown to pieces at the Sandy Hook proving grounds Thursday. The men who were about to fire the mortar were all behind bombproofs and no one was injured by the widely scattered pieces of steel.

OUTDONE BY KANSAS GIRLS.

Student Farm Hands No Match For Them at Shocking Wheat.

Students and others from the eastern cities who went to Kansas to work in the harvest fields are not able in many instances to keep up with the farmers' daughters who help out in the present rush, says a Topeka dispatch to the New York Times.

In Pawnee county the other day six young fellows were laid out by the beat, while four maidens, performing the same service, sang merrily from morning to night. Similar stories came from the other counties. The easterners appear to be rugged and strong, but the change of water and altitude, with the intense heat and burned atmosphere, put them out in short order, while the girls who are accustomed are not disturbed.

Tree Planting on Pike's Peak.

A very interesting experiment and one of great importance to the people of the west will be conducted this summer on Pike's peak, says the Pueblo Chieftain. A party from the United States forestry bureau under charge of one of the government experts will plant a large number of trees on the slopes of Pike's peak and the neighboring mountains. The trees thus planted will not only be of great benefit to the Pike's peak region, but the experiments will be most valuable in solving general problems relating to forestry in the west.

We Have the Only Known Cure in the World for

RHEUMATISM

Your rheumatism is just like all others, and for the same reason that they are not cured, you are not cured. There is only one known cure for rheumatism in the world, and that is MEDERINE. Everything else is simply "recommended." We have thousands of testimonials on file from people who were cured by MEDERINE after paying enough for other "cures" to buy a farm. Every bottle sold bears our absolute guarantee to cure. RHEUMATISM is caused by uric acid in the blood, which stiffens, enlarges and locks the joints and often renders you a cripple for life.

It Drives Out Rheumatism.

A. G. D. White, Toronto, Ontario, writes: "You are the only remedy that kills Rheumatism in the system. One course of treatment cured me. I am now taking another treatment for my blood. It is the best medicine I ever used for these troubles. Thousands of Testimonials on file from thankful patients in all parts of the world testifying to the curative qualities of MEDERINE."

The party was highly pleased with a large string of black bass.

MUSIC AND DRAMA.

FRANCIS GREENE STOCK CO.

Although the "Rose of Killarney" was not a new play to our theatre goers the play was well presented by the Francis Greene company last evening. The specialties were exceptionally good especially the dancing doll sketch by Francis and Alice Greene. The tricks in oriental magic by Mock Sad Ali were very clever, and also Norris and Lynn in their double singing and dancing turn. Tonight "Dangers of a Great City," a new sensational comedy drama, will be presented with an entire change of specialties.—Fargo Argus, July 15.

This excellent company will play a weeks' engagement at the Brainerd theatre at popular summer prices of only 15, 25, 35 and 50c with ladies free the opening night. There will be a change of play nightly and the opening date is Monday, August 3.

And There Is a Marked Improvement in Agricultural Pursuits Along the Line.

Governor and Mrs. S. R. Van Sant were distinguished guests in the city for a short time this afternoon, having returned from Bemidji where they attended the encampment of the Park Region G. A. R.

The governor, in a conversation with a representative of the DISPATCH, stated that they had been royally received at Bemidji and had a splendid time. "There is but one train of thought on my mind at present," said the governor, "and it has to do with Northern Minnesota and her great growth during the past two years. I have taken particular pains during this trip north to note the improvements made, and on every hand there is evidence of thrift and prosperity, and I tell you what, in a few years it will be one of the very best sections of the state. The towns and cities look prosperous and are still growing and from an agricultural standpoint the growth is marvelous. I drove out from Bemidji purposely to look over the farming community and I was agreeably surprised."

The governor and his wife left for St. Paul this afternoon.

APPLIES FOR PEACE BOND

Charles Ahrens Would have George Anderson Placed Under Bonds to Keep the Peace.

There was a hearing in the municipal court this morning wherein Charles Ahrens asked that George Anderson be placed under bonds to keep peace. Ahrens claims that he has been threatened on various occasions by Anderson and that he even took hold of him and choked him a few days ago.

The hearing in the matter was continued until Wednesday morning at 10 o'clock, when it is expected that the trouble will be aired to the satisfaction of all concerned.

THOUGHT HE'D GO TO BED

A Man Who Got Jaggy while Near the River Undresses and Lies Down to Sleep—Thought he was Lost.

The police are investigating what seems to be a very strange disappearance of a man who with his partner are traveling through the country in a wagon looking for work.

The men arrived in the city yesterday from Little Falls and the one that owned the team and rig gave his name as Baker, but the other man's name was not learned. They were drinking until quite late around the No. 1 saloon and then started out of town. This morning the rig was found on the river bank south of the city, the horses were gone, the stuff in the wagon had been strewn all over the ground and neither man was anywhere to be found. When the proprietor of the No. 1 saloon came down town early this morning the first man he saw was Baker in the saloon asleep. Nothing could be learned from him as he seemed to be in a drunken stupor.

In looking over the stuff that was in the wagon, and which has been strewn about the place, it was found that the clothing of Baker's partner were there, his hat, coat and pants, and the mystery is what has become of the man. It is believed that he has either been foully dealt with or else was so drunk that he imagined he was going to bed and undressed and wandered away somewhere.

Later the missing man showed up. He says when he came to after going to sleep in a pile of brush near the river, he found he had no clothes on. He stood clothed like Adam in the Garden of Eden waiting patiently for some pedestrian to pass near enough to him so that he could fill his ear full and persuade him to go bring a pair of pants. A man did show up and brought him a pair of overalls and a straw hat, and thus thinly clad he came up town and made up with his partner.

The party was highly pleased with a large string of black bass.

MUSIC AND DRAMA.

FRANCIS GREENE STOCK CO.

Although the "Rose of Killarney" was not a new play to our theatre goers the play was well presented by the Francis Greene company last evening. The specialties were exceptionally good especially the dancing doll sketch by Francis and Alice Greene. The tricks in oriental magic by Mock Sad Ali were very clever, and also Norris and Lynn in their double singing and dancing turn. Tonight "Dangers of a Great City," a new sensational comedy drama, will be presented with an entire change of specialties.—Fargo Argus, July 15.

This excellent company will play a week's engagement at the Brainerd theatre at popular summer prices of only 15, 25, 35 and 50c with ladies free the opening night. There will be a change of play nightly and the opening date is Monday, August 3.

NORTHERN MINN.'S

BRIGHT FUTURE

Governor Van Sant Surprised at the Progress Made During the Past Two Years.

DROVE THROUGH MUCH COUNTRY

And There Is a Marked Improvement in Agricultural Pursuits Along the Line.

Governor and Mrs. S. R. Van Sant were distinguished guests in the city for a short time this afternoon, having returned from Bemidji where they attended the encampment of the Park Region G. A. R.

The governor, in a conversation with a representative of the DISPATCH, stated that they had been royally received at Bemidji and had a splendid time. "There is but one train of thought on my mind at present," said the governor, "and it has to do with Northern Minnesota and her great growth during the past two years. I have taken particular pains during this trip north to note the improvements made, and on every hand there is evidence of thrift and prosperity, and I tell you what, in a few years it will be one of the very best sections of the state. The towns and cities look prosperous and are still growing and from an agricultural standpoint the growth is marvelous. I drove out from Bemidji purposely to look over the farming community and I was agreeably surprised."

The governor and his wife left for St. Paul this afternoon.

APPLIES FOR PEACE BOND

Charles Ahrens Would have George Anderson Placed Under Bonds to Keep the Peace.

There was a hearing in the municipal court this morning wherein Charles Ahrens asked that George Anderson be placed under bonds to keep peace. Ahrens claims that he has been threatened on various occasions by Anderson and that he even took hold of him and choked him a few days ago.

The hearing in the matter was continued until Wednesday morning at 10 o'clock, when it is expected that the trouble will be aired to the satisfaction of all concerned.

THOUGHT HE'D GO TO BED

A Man Who Got Jaggy while Near the River Undresses and Lies Down to Sleep—Thought he was Lost.

The police are investigating what seems to be a very strange disappearance of a man who with his partner are traveling through the country in a wagon looking for work.

The men arrived in the city yesterday from Little Falls and the one that owned the team and rig gave his name as Baker, but the other man's name was not learned. They were drinking until quite late around the No. 1 saloon and then started out of town. This morning the rig was found on the river bank south of the city, the horses were gone, the stuff in the wagon had been strewn all over the ground and neither man was anywhere to be found. When the proprietor of the No. 1 saloon came down town early this morning the first man he saw was Baker in the saloon asleep. Nothing could be learned from him as he seemed to be in a drunken stupor.

In looking over the stuff that was in the wagon, and which has been strewn about the place, it was found that the clothing of Baker's partner were there, his hat, coat and pants, and the mystery is what has become of the man. It is believed that he has either been foully dealt with or else was so drunk that he imagined he was going to bed and undressed and wandered away somewhere.

Later the missing man showed up. He says when he came to after going to sleep in a pile of brush near the river, he found he had no clothes on. He stood clothed like Adam in the Garden of Eden waiting patiently for some pedestrian to pass near enough to him so that he could fill his ear full and persuade him to go bring a pair of pants. A man did show up and brought him a pair of overalls and a straw hat, and thus thinly clad he came up town and made up with his partner.

SENSATIONAL STREET SCENE

Horses Become Unmanageable
and Mrs. Les. Low and Miss
Pauline Denning

HAVE A VERY NARROW ESCAPE

From Injury by Being Thrown
from Buggy, Hitting Ground
with Terrible Force.

There was a rather sensational run-
away this morning about 9 o'clock on
Front street and the wonder is that
those who occupied the conveyance
were not killed outright. The victims
of the unfortunate accident were Mrs.
Les. Low and Miss Pauline Denning,
sisters of Mrs F. E. Low, of this city.

The two ladies have been visiting
in the city for some time. This morning
they had started from in front of the
City Hall driving east on Front and
when about in the middle of the block,
a team belonging to the Minneapolis
Brewing company, which was standing
in front of the Ideal saloon, started to
run away, becoming scared at the dinky
engine being operated by the carnival
company on Front street. The team
dashed down the street and ran into
the Low buggy taking one of the hind
wheels off. This frightened the little
horse and he started to run and the
scenes of the few moments following
were of a rather exciting character.
The horse started pell mell to get off
the street and seemed to be headed
diagonally across the corner near the Y.
M. C. A. The light buggy struck the
curb with terrific force and the ladies
were thrown fully ten or fifteen feet
into the air.

Mrs. Low was the first to be thrown.
She fortunately struck the ground just
inside the curb and coming down as she
did if she had struck the curb or had
fallen to the ground within the curb
where there are a profusion of rocks,
she certainly would have been killed.

Miss Denning did not fare so well.
She was thrown rather forcibly to the
ground on her left shoulder.

Dr. Groves was called and it was
found that Mrs. Low's injuries did not
amount to anything, but Miss Denning's
shoulder blade was broken, and she
was otherwise slightly bruised up.

It was particularly fortunate that
both of the ladies were not more
seriously hurt, but as it is they state
that their experience was of the kind
that is not relished as a repetition.

promoters of the company are farmers
from different sections of the county.

The officers of the company are: A.
Webber, president, and D. W. Devlin,
secretary and treasurer.

D. M. Clark & Co. have just received
a new spring line of wall paper and room

MUST BE SATISFIED WITH OLD

National Guard of the State Equipped

But the Guns will Be the Old Style
Krag-Jorgenson.

Officers of the Minnesota national
guard have received information that in
all probability the rifles which the state
militia will receive under the recent
law passed by congress, known as the
Dick law, are not the same as those with
which the regular United States army
will soon be equipped.

The purpose of the bill, it was sup-
posed, was to make uniform the accou-
tremments of the state militia and the
regular army. When the law was passed
the standard service rifle of the regular
army was the Krag-Jorgenson, of which
the government owned a large stock.
The government has already begun to
distribute these rifles among the militia
organizations.

It has been ascertained, however, that
the government is planning to equip the
regular army with the new Springfield
rifle, which is said to be a lighter gun
and of a more improved pattern. This
rifle is called the "United States mag-
azine rifle, model 1903."

Adj. Gen. E. D. Libby has received
word from Washington that the Minne-
sota militia is entitled to equipment for
thirty-six officers and 1,846 enlisted men.
Congress appropriated \$2,000,000 to
equip the state militia.

HAS OUTGROWN ITS PRESENT QUARTERS

Martin Shearing and Clipping
Company Has Filed Articles
of Incorporation.

DO BUSINESS ON LARGER SCALE

Ultimate Success of Martin Shear-
ing Machine Makes It Neces-
sary to Branch Out.

The Martin Shearing and Clipping
company is a thoroughly local propo-
sition and though now only in its primi-
tive state bids fair to become one of the
largest manufacturing institutions in
the northern part of the state. This
company has been incorporated, and di-
rectors and officers elected and plans
are now being laid for expanding so
that machines can be turned out in
sufficient quantities to meet the de-
mands.

The Martin shearing machine has
been given a thorough test this sum-
mer, and Mr. Martin himself, as well as
those interested, are convinced that
there is no machine that does better
work or that can excel it in any one
point. The machines were sold this
summer as fast as they could be taken
out, and they have been doing good
work on ranches out west.

Experts have tried and tested them
the ranchers have seen them work and
mechanics have scrutinized their mech-
anism and all state that they are the
best machines put out.

With this very positive assurance
that the machine is a success the fac-
ilities of Mr. Martin have grown entirely
inadequate for the demand and this is
the reason that a stock company was
organized and incorporated.

The directors for the first term are T.
A. Martin, Lon Everett and F. A. Far-
rar. T. A. Martin is president, Lon
Everett, vice president, and F. A. Far-
rar, secretary and treasurer.

The company is laying plans to make

some extensive improvements so that
the machines can be turned out to meet
the demands. They have orders in for
the machines that will keep them busy
for many months to come with even a
good equipment.

What's the secret of happy, vigorous

ters does it.

ANOTHER BIG COMPANY

Senator A. F. Ferris and J. M. Elder are
Interested in a Big Lumber Com-
pany in Canada.

The party of American investors who
came through Winnipeg last week on
their way to Fernie, B. C., returned
Monday morning in their private car
Desdemona, attached to the regular C.
P. R. coast train. At Fernie they or-
ganized the Elk Lumber and Manufac-
turing company, the officers for the new
company being as follows: O. Robert-
son, president; Senator J. C. Wood, vice-
president; F. G. Barrows, secretary; W.
P. Dutton, treasurer, and D. V. Mott, of
Fernie, manager. The company has
purchased about 300,000,000 feet of
choice timber in British Columbia, be-
sides mills now in operation.

The party making the trip includes,
besides the above, the following stock-
holders, a number of whom are on the
directorate of the new corporation: F.
B. Lynch, of St. Paul; E. G. Small, of
Pittsburg, Pa.; G. E. Dutton, of Sycam-
ore, Ill.; J. M. Elder and A. F. Ferris,
of Brainerd, Minn.; U. S. Congressman
S. G. Comstock, of Moorhead; Attorney
W. L. Parsons, of Fergus Falls, Minn.;
Senator E. T. Young, of Appleton; C. J.
Schendel, of Campbell, Minn.; G. S.
Clark and C. A. Chambers, of Minne-
apolis and H. I. Box, of Winnipeg.

A number of the gentlemen named
are interested in the new corporation's
allied company, the Red Deer Lumber
company of Winnipeg, and at the
meeting of the latter company held yester-
day at its offices here, the following
officers were chosen for the ensuing
year: O. A. Robertson, president; F. G.
Barrows, vice president; F. B. Lynch,
secretary; W. P. Dutton, treasurer; G.
S. Clark, manager, and H. J. Box, su-
perintendent.—Manitoba Free Press.

Martin Shearing and Clipping
Company Has Filed Articles
of Incorporation.

DO BUSINESS ON LARGER SCALE

Ultimate Success of Martin Shear-
ing Machine Makes It Neces-
sary to Branch Out.

The Martin Shearing and Clipping
company is a thoroughly local propo-
sition and though now only in its primi-
tive state bids fair to become one the
largest manufacturing institutions in
the northern part of the state. This
company has been incorporated, and di-
rectors and officers elected and plans
are now being laid for expanding so
that machines can be turned out in
sufficient quantities to meet the de-
mands.

The Martin shearing machine has
been given a thorough test this sum-
mer, and Mr. Martin himself, as well as
those interested, are convinced that
there is no machine that does better
work or that can excel it in any one
point. The machines were sold this
summer as fast as they could be taken
out, and they have been doing good
work on ranches out west.

Experts have tried and tested them
the ranchers have seen them work and
mechanics have scrutinized their me-
chanism and all state that they are the
best machines put out.

With this very positive assurance
that the machine is a success the fac-
ilities of Mr. Martin have grown entirely
inadequate for the demand and this is
the reason that a stock company was
organized and incorporated.

The directors for the first term are T.
A. Martin, Lon Everett and F. A. Far-
rar. T. A. Martin is president, Lon
Everett, vice president, and F. A. Far-
rar, secretary and treasurer.

The company is laying plans to make

some extensive improvements so that
the machines can be turned out to meet
the demands. They have orders in for
the machines that will keep them busy
for many months to come with even a
good equipment.

What's the secret of happy, vigorous

ters does it.

ANOTHER BIG COMPANY

Senator A. F. Ferris and J. M. Elder are
Interested in a Big Lumber Com-
pany in Canada.

The party of American investors who
came through Winnipeg last week on
their way to Fernie, B. C., returned
Monday morning in their private car
Desdemona, attached to the regular C.
P. R. coast train. At Fernie they or-
ganized the Elk Lumber and Manufac-
turing company, the officers for the new
company being as follows: O. Robert-
son, president; Senator J. C. Wood, vice-
president; F. G. Barrows, secretary; W.
P. Dutton, treasurer, and D. V. Mott, of
Fernie, manager. The company has
purchased about 300,000,000 feet of
choice timber in British Columbia, be-
sides mills now in operation.

The party making the trip includes,
besides the above, the following stock-
holders, a number of whom are on the
directorate of the new corporation: F.
B. Lynch, of St. Paul; E. G. Small, of
Pittsburg, Pa.; G. E. Dutton, of Sycamore,
Ill.; J. M. Elder and A. F. Ferris,
of Brainerd, Minn.; U. S. Congressman
S. G. Comstock, of Moorhead; Attorney
W. L. Parsons, of Fergus Falls, Minn.;
Senator E. T. Young, of Appleton; C. J.
Schendel, of Campbell, Minn.; G. S.
Clark and C. A. Chambers, of Minne-
apolis and H. I. Box, of Winnipeg.

A number of the gentlemen named
are interested in the new corporation's
allied company, the Red Deer Lumber
company of Winnipeg, and at the meet-
ing of the latter company held yester-
day at its offices here, the following
officers were chosen for the ensuing
year: O. A. Robertson, president; F. G.
Barrows, vice president; F. B. Lynch,
secretary; W. P. Dutton, treasurer; G.
S. Clark, manager, and H. J. Box, su-
perintendent.—Manitoba Free Press.

SENSATIONAL STREET SCENE

Horses Become Unmanageable
and Mrs. Les. Low and Miss
Pauline Denning

HAVE A VERY NARROW ESCAPE

From Injury by Being Thrown
from Buggy, Hitting Ground
with Terrible Force.

There was a rather sensational run-
away this morning about 9 o'clock on
Front street and the wonder is that
those who occupied the conveyance
were not killed outright. The victims
of the unfortunate accident were Mrs.
Les. Low and Miss Pauline Denning,
sisters of Mrs. F. E. Low, of this city.

The two ladies have been visiting
in the city for some time. This morning
they had started from in front of the
City Hall driving east on Front and
when about in the middle of the block,
a team belonging to the Minneapolis
Brewing company, which was standing
in front of the Ideal saloon, started to
run away, becoming scared at the dinky
engine being operated by the carnival
company on Front street. The team
dashed down the street and ran into
the Low buggy taking one of the hind
wheels off. This frightened the little
horse and he started to run and the
scenes of the few moments following
were of a rather exciting character.
The horse started pell mell to get off
the street and seemed to be headed
diagonally across the corner near the Y.
M. C. A. The light buggy struck the
curb with terrific force and the ladies
were thrown fully ten or fifteen feet
into the air.

Mrs. Low was the first to be thrown.
She fortunately struck the ground just
inside the curb and coming down as she
did if she had struck the curb or had
fallen to the ground within the curb
where there are a profusion of rocks,
she certainly would have been killed.

Miss Denning did not fare so well.
She was thrown rather forcibly to the
ground on her left shoulder.

Dr. Groves was called and it was
found that Mrs. Low's injuries did not
amount to anything, but Miss Denning's
shoulder blade was broken, and she
was otherwise slightly bruised up.

It was particularly fortunate that
both of the ladies were not more
seriously hurt, but as it is they state
that their experience was of the kind
that is not relished as a repetition.

A number of Crow Wing county
farmers recently held a meeting in this
city and perfected the organization of
what will be known in the future as the
Farmers Mutual Insurance Co. The
promoters of the company are farmers
from different sections of the county.

The officers of the company are: A.
Webber, president, and D. W. Devlin,
secretary and treasurer.

D. M. Clark & Co. have just received

MUST BE SATISFIED WITH OLD

National Guard of the State Equipped
But the Guns will Be the Old Style
Krag-Jorgenson.

Officers of the Minnesota national
guard have received information that in
all probability the rifles which the state
militia will receive under the recent
law passed by congress, known as the
Dick law, are not the same as those with
which the regular United States army
will soon be equipped.

The purpose of the bill, it was sup-
posed, was to make uniform the accou-
trements of the state militia and the
regular army. When the law was passed
the standard service rifle of the regular
army was the Krag-Jorgenson, of which
the government owned a large stock.
The government has already begun to
distribute these rifles among the militia
organizations.

It has been ascertained, however, that
the government is planning to equip the
regular army with the new Springfield
rifle, which is said to be a lighter gun
and of a more improved pattern. This
rifle is called the "United States maga-
zine rifle, model 1903."

Adj. Gen. E. D. Libby has received
word from Washington that the Minne-
sota militia is entitled to equipment for
thirty-six officers and 1,846 enlisted men.
Congress appropriated \$2,000,000 to
equip the state militia.

MRS. HELENA BLAU,

Young Milwaukee Society Woman.

TEN thousand cured women have written to tell how Wine of Cardui bestows the blessing of health on every woman who takes it, rich and poor alike. Mrs. Helena Blau, No. 123 Seventh Street, Milwaukee, Wis., is one of the young women whom Wine of Cardui has rescued from a life of suffering. She writes:

"Wine of Cardui is certainly 'worn out' women's best friend and I am pleased to give my experience with it. A few months ago I caught a severe cold, having been out in inclement weather, which settled all over me, particularly in the abdomen. I was in almost constant pain. I consulted a physician and took his medicine for a month and without any relief. I then decided I would try your medicine and it was a lucky day for me when I did so. I noticed a change in a few days and felt encouraged to continue taking Wine of Cardui, and my patience was rewarded, for in two weeks my pains had left me and I felt like a new woman."

PROMOTERS SENTENCED.

Hail Insurance Men in North Dakota Sent to Prison.

Fargo, N. D., July 25.—In the United States court, Miller, Gilder and Randall, the Hankinbabin hall insurance promoters, convicted thirty days ago for conspiracy to defraud, were arraigned for sentence. Judge Amidon overruled a motion for a new trial. Miller and Gilder, considered the prime movers in the fraud, were sentenced to one year and day in a United States penitentiary and fined \$1,000 each. Randall was fined \$1,000 and sentenced to eight months' imprisonment in the county jail at Jamestown, N. D. The prisoners are to remain in confinement until the fines are paid.

Approves Leo's Charity.

The congregation Friday also heard the secret reports received from the nuncios at Vienna, Paris, Munich and Madrid. It approved the charity bequeathed by Leo to the poor, dividing it as follows: \$10,000 for Rome; \$4,000 for Perugia, where Leo was for many years archbishop, and \$2,000 for Carpineto, where the late pontiff was born.

Tonight's Italia sees alleged confirmation of the story that Cardinal Gibbons had succeeded in transforming Cardinal Richard, the archbishop of Paris, into an opponent of Cardinal Rampolla in the alleged fact that Cardinal Gibbons did not leave Cardinal Richard while in Paris, that they left together for Rome, traveled together and will lodge together at the house of the Order of St. Sulpice. As a matter of fact only the statement that they will lodge together is true.

Inside the vatican the work of arranging the apartments for the conclave has been begun. Cardinal Oreglia, escorted by the Swiss guards, inspected the work, observing everything minutely.

Cardinal Oreglia is increasing in favor daily, even in the government circles, where it is remembered that it was through his efforts that the propaganda of the vatican adhered to the request of the Italian government to establish an apostolic prefecture in Ethiopia.

TROOPS DIE FROM HEAT.

Four Hundred and Fifty Men Affected and Nineteen Perish.

INCREASE IN CROWDS

THIRTY THOUSAND PEOPLE VIEW

THE REMAINS OF THE LATE

POPE LEO XIII.

WITH IMPRESSIVE CEREMONY

THE BODY WILL BE INTERRED

IN A SARCOPHAGUS AT HIS-

TORIC ST. PETER'S.

Rome, July 25.—Again the body of Leo XIII lay in state in the basilica of St. Peter's and about 30,000 people passed before the catafalque during Friday. This is probably a slight increase over the number who viewed the remains Thursday and the augmentation was doubtless due to the widely circulated reports that Friday would be the last day upon which the public would have an opportunity of looking upon the body of the beloved pontiff. These reports proved to be baseless, and the body will continue in the chapel of the sacrament, at least during the greater part of today. The fears expressed by the vatican authorities concerning decomposition appear to have been exaggerated.

With impressive ceremonies the body will be interred this evening in a sarcophagus at St. Peter's, where it will remain until taken to its final resting place in the church of St. John of Lateran. Italian soldiers again preserve order inside St. Peter's, where there was a repetition of the scene and crowd which occurred Thursday.

For the Repose of Leo's Soul.

The day was notable for the solemn masses celebrated for the repose of the soul of the late pontiff at St. Peter's and other famous churches in Rome, which were largely attended, despite the pathetic ceremony which was occurring at the basilica.

Interest is now largely engrossed with the coming conclave and its result. The gossip of the day may be summed up briefly by saying that Cardinal Gotti's chances of election seem to have improved in comparison with those of other cardinals who have been mentioned as likely to succeed the dead pontiff, although there still exists a strong feeling that some one, hitherto scarcely talked of, may wear the tiara.

Much comment was excited at the vatican by a drive which Cardinal Oreglia took through the vatican gardens in the morning. The camerlengo did not appear to be satisfied with what he saw. He shook his head, exclaiming dismally, "What decay; what neglect! I could not remain shut up in this melancholy place. I should die within a year."

Gossip About Cardinal Oreglia.

The gossips of the vatican now wish to know if this means that the cardinal would not accept the papacy, which seems practically impossible, or, accepting, would refuse to be the voluntary, traditional vatican prisoner. It seems that the more probable interpretation of his remarks would be that if made pope he would institute great changes in the gardens.

The congregation of cardinals has not yet decided whether the note which the sacred college intends to address to the powers concerning the situation of the papacy at Rome shall be presented today when the reception of the diplomatic body occurs. The diplomats accredited to the holy see will be presented by M. Martins d'Antas, the minister from Portugal, who is dean of the corps. Mgr. Merry del Val will reply as acting secretary of state. At the meeting of the congregation Friday, Cardinal Satolli asked when the conclave would be opened. Cardinal Oreglia replied that he thought that on the evening of Friday, July 31, all the cardinals might enter their cells and be ready for the first meeting of the conclave Aug. 1, a week from today. Mgr. Faragall, the famous Latinist whom Gladstone often consulted and of whom the German emperor requested advice concerning Latin, has been selected to write the oratio brevis, the Latin eulogy upon the late pontiff, which will be buried with him.

SHAMROCK III TAKES REVENGE.

Defeats Her Trial Horse Handily in a Twenty-nine Mile Race.

Atlantic Highlands, N. J., July 25.—Shamrock III more than squared accounts with her pacemaker, Shamrock I, Friday for the beating the challenger suffered Thursday. Sailing over a twenty-nine-mile course, the cup hunter beat the old boat 8 minutes, 11 seconds, running ten miles to leeward, 5 minutes, 10 seconds beating 10 miles to windward and 7 minutes, 29 seconds in a reach of nine miles, 20 minutes, 40 seconds in all. The challenger's victory running to leeward was flawless. Beating back Shamrock I suffered a little of her loss in a calm streak, and in reaching more heavily from the same cause. Nevertheless, the victory was fairly earned, except that the difference between the two boats was exaggerated by the disadvantages the old boat suffered.

HAY FEVER ABOLISHED.

Relief of this Malady Discovered by Medical Science—Breathe Hyomei.

Among the important additions made to medical science in recent years, none is more notable than the positive announcement of a cure for hay fever.

While this fever is not regarded as fatal, it is certainly a most distressing malady, and if anything can be devised to cure it a great boon will be conferred upon the human race.

Exhaustive experiments with Hyomei prove that this treatment will prevent all attacks of hay fever if used two or three weeks before the annual appearance of the disease and that it may be relied upon if used faithfully after the disease has begun, to relieve at once and afford a speedy cure.

H. P. Dunn & Co. have sold hundreds of Hyomei outfits for the treatment of diseases of the respiratory organs under the agreement to refund the money if Hyomei did not afford relief.

In selling Hyomei for the cure of hay fever, they will continue this equitable plan, and want all who are subject to this distressing malady to begin its use at once, with the understanding that if it does not give satisfaction, the purchase price is to be refunded.

Stomach dosing cannot cure hay fever. A change of climate is the only treatment that has heretofore aborted an attack, and Hyomei, which is breathed through a neat pocket inhaler coming with every outfit, acts upon this principle, giving in your own home a climate like that of the White Mountains or other health resorts.

MRS. HELENA BLAU,

Young Milwaukee Society Woman.

TEN thousand cured
women have written
to tell how Wine of
Cardui bestows the
blessing of health on every
woman who takes it, rich
and poor alike. Mrs.
Helena Blau, No. 123 Sev-
enth Street, Milwaukee,
Wis., is one of the young
women whom Wine of Car-
dium has rescued from a life
of suffering. She writes:

"Wine of Cardui is certainly 'worn
out' women's best friend and I am pleased
to give my experience with it. A few
months ago I caught a severe cold, hav-
ing been out in inclement weather, which
settled all over me, particularly in the
abdomen. I was in almost constant pain.
I consulted a physician and took his
medicine for a month and without any
relief. I then decided I would try your
medicine and it was a lucky day for me
when I did so. I noticed a change in a
few days and felt encouraged to continue
taking Wine of Cardui, and my patience
was rewarded, for in two weeks my pains
had left me and I felt like a new woman."

The woman who has suf-
fered from female weakness
should do anything within
reason to secure health.
Wine of Cardui is the medi-
cine that appeals to reason-
able women—women who
hold operations and cutting
in horror—women who know
that Nature is the best phy-
sician. Wine of Cardui
gives women back their
health by giving Nature a
chance to build up the wasted and dis-
eased tissue. Wine of Cardui regulates
the menstrual flow and Nature, when
relieved of the drains or of the poisons
in the system, makes the functional
organs strong and healthy again.

Any woman who is silently suffering
untold pains because she is too sensitive
to undergo a physician's examination
and treatment can find no excuse for
not securing relief when Wine of Car-
dium is offered to her. There is no pub-
licity to deter her. She can take Wine
of Cardui in the privacy of her home,
with as much assurance of a final cure
as though a dozen doctors recommended
it. Many physicians do recommend
Wine of Cardui to their patients.

Why not get a \$1.00 bottle of Wine
of Cardui from your druggist today?

A million suffering women
have found relief in
Wine of Cardui.

PROMOTERS, SENTENCED.

Hail Insurance Men in North Dakota
Sent to Prison.

Fargo, N. D., July 25.—In the United
States court, Miller, Gilder and Ran-
dall, the Hankinson hail insurance
promoters, convicted thirty days ago
for conspiracy to defraud, were arraign-
ed for sentence. Judge Amidon over-
ruled a motion for a new trial. Miller
and Gilder considered the prime mov-
ers in the fraud, were sentenced to one
year and day in a United States peni-
tentiary and fined \$1,000 each. Ran-
dall was fined \$1,000 and sentenced
to eight months' imprisonment in the
county jail at Jamestown, N. D. The
prisoners are to remain in confinement
until the fines are paid.

Approves Leo's Charity.

The congregation Friday also heard
the secret reports received from the
nuncios at Vienna, Paris, Munich and
Madrid. It approved the charity be-
queathed by Leo to the poor, dividing
it as follows: \$10,000 for Rome; \$4,
000 for Perugia, where Leo was for
many years archbishop, and \$2,000 for
Carpinetto, where the late pontiff was
born.

Tonight's Italia sees alleged
confirmation of the story that Cardinal
Gibbons had succeeded in transform-
ing Cardinal Richard, the archbishop
of Paris, into an opponent of Cardinal
Rampolla in the alleged fact that Car-
dinal Gibbons did not leave Cardinal
Richard while in Paris, that they left
together for Rome, traveled together
and will lodge together at the house
of the Order of St. Sulpice. As a mat-
ter of fact only the statement that they
will lodge together is true.

Inside the vatican the work of ar-
ranging the apartments for the con-
clave has been begun. Cardinal Oreglia,
escorted by the Swiss guards, in-
spected the work, observing every-
thing minutely.

Cardinal Oreglia is increasing in fa-
vor daily, even in the government cir-
cles, where it is remembered that it
was through his efforts that the propa-
ganda of the vatican adhered to the
request of the Italian government to
establish an apostolic prefecture in
Eritrea.

TROOPS DIE FROM HEAT.

Four Hundred and Fifty Men Affected
and Nineteen Perish.

Budapest, Hungary, July 25.—Ad-
vices from Herzegovina say that dur-
ing a maneuver march of an infantry
regiment from Trebinje to Bilek last
Monday, 450 men were the victims of
the extraordinary heat; that 19 died
and 10 are expected to die.

INCREASE IN CROWDS

THIRTY THOUSAND PEOPLE VIEW

THE REMAINS OF THE LATE

POPE LEO XIII.

WITH IMPRESSIVE CEREMONY

THE BODY WILL BE INTERRED

IN A SARCOPHAGUS AT HIS-

TORIC ST. PETER'S.

Rome, July 25.—Again the body of
Leo XIII lay in state in the basilica of
St. Peter's and about 20,000 people
passed before the catafalque during
Friday. This is probably a slight in-
crease over the number who viewed
the remains Thursday and the augmen-
tation was doubtless due to the widely
circulated reports that Friday would
be the last day upon which the public
would have an opportunity of looking
upon the body of the beloved pontiff.
These reports proved to be baseless,
and the body will continue in the
chapel of the sacrament, at least dur-
ing the greater part of today. The
fears expressed by the vatican authori-
ties concerning decomposition appear
to have been exaggerated.

With impressive ceremonies the
body will be interred this evening in
a sarcophagus at St. Peter's, where
it will remain until taken to its final
resting place in the church of St. John
of Lateran. Italian soldiers again
preserve order inside St. Peter's, where
there was a repetition of the scene and
crowd which occurred Thursday.

For the Repose of Leo's Soul.

The day was notable for the solemn
masses celebrated for the repose of the
soul of the late pontiff at St. Peter's
and other famous churches in Rome,
which were largely attended, despite
the pathetic ceremony which was oc-
curring at the basilica.

Interest is now largely engrossed
with the coming conclave and its re-
sult. The gossip of the day may be
summed up briefly by saying that
Cardinal Gotti's chances of election
seem to have improved in comparison
with those of other cardinals who have
been mentioned as likely to succeed
the dead pontiff, although there still
exists a strong feeling that some one,
hitherto scarcely talked of, may wear
the tiara.

Much comment was excited at the
vatican by a drive which Cardinal
Oreglia took through the vatican gar-
dens in the morning. The camerlengo
did not appear to be satisfied with
what he saw. He shook his head, ex-
claiming dismally, "What decay; what
neglect! I could not remain shut up
in this melancholy place. I should die
within a year."

Gossip About Cardinal Oreglia.

The gossip of the vatican now wish
to know if this means that the cardinal
would not accept the papacy,
which seems practically impossible, or,
accepting, would refuse to be the vol-
untary, traditional vatican prisoner.
It seems that the more probable in-
terpretation of his remarks would be
that if made pope he would institute
great changes in the gardens.

The congregation of cardinals has
not yet decided whether the note which
the sacred college intends to address
to the powers concerning the situation
of the papacy at Rome shall be pre-
sented today when the reception of
the diplomatic body occurs. The
diplomats accredited to the holy see
will be presented by M. Martins d'Antas,
the minister from Portugal, who is
dean of the corps. Mgr. Merry del
Val will reply as acting secretary of
state. At the meeting of the congre-
gation Friday, Cardinal Satolli asked
when the conclave would be opened.
Cardinal Oreglia replied that he
thought that on the evening of Friday,
July 31, all the cardinals might enter
their cells and be ready for the first
meeting of the conclave Aug. 1, a
week from today. Mgr. Faragutelli,
the famous Latinist whom Gladstone
often consulted and of whom the Ger-
man emperor requested advice con-
cerning Latin, has been selected to
write the oratio brevis, the Latin
eulogy upon the late pontiff, which will
be buried with him.

Approves Leo's Charity.

The congregation Friday also heard
the secret reports received from the
nuncios at Vienna, Paris, Munich and
Madrid. It approved the charity be-
queathed by Leo to the poor, dividing
it as follows: \$10,000 for Rome; \$4,
000 for Perugia, where Leo was for

Atlantic Highlands, N. J., July 25.—
